

For Immediate Release

CAROLINA BASED MILLION® BEVERAGE LAUNCHES THEIR PREMIUM GREEN TEAS IN THE QUEEN CITY.

Charlotte Debut: Cunningham Wholesale Company partners with Million Beverage as their exclusive Charlotte distributor.

CORNELIUS, NC (October 13, 2009) - Million Beverage, LLC is pleased to introduce Million® Premium Green Tea to the Charlotte, NC market. MILLION® is a premium brewed green tea that delivers a potent blend of essential vitamins, nutrients and antioxidants without the sugar, carbohydrates, calories or sodium found in other teas. Offering grape-pomegranate and orange-mango flavors packaged in striking 16 ounce bottles, the unique crisp and refreshing taste of MILLION® Premium Green Tea delivers what your body needs.

“The Charlotte area is booming with a health and fitness conscious population and as people lose tolerance for high-sugar based teas, sodas and energy drinks, we anticipate MILLION® Premium Green Tea to become a leading competitor among products developed for a healthy lifestyle,” says Brandon Sperling, Million’s creator. Loaded with a healthy fusion of superior ingredients including Acai berry, the world’s most powerful and nutritious superfood, Million is in a league of its own.

Along with the natural health benefits that green tea already contains, one bottle of Million® provides you with 50% of your daily recommended vitamins A, B3, B5, B6, B12, C, D, E and folic acid.

“We take great pride in the fact that Million is a North Carolina brand and we’re extremely excited about beginning our nationwide launch right here in our hometown of Charlotte,” states Sperling. Million will be available at stores, restaurants and country clubs in and around the metro Charlotte area. In addition, special launch events with Million will take place in the coming months in some of America’s most targeted destinations including Miami, Atlanta, Las Vegas, Los Angeles and NYC.

ABOUT MILLION: MILLION® Premium Green Tea was originally conceived by Brandon Sperling, a career race car driver on the NASCAR circuit and performance driving expert for Mercedes-Benz, BMW, Porsche, Ford and GM. Brandon's search for an invigorating, all-in-one nutrient-enriched beverage that would help him, both physically and mentally, take on the grueling demands of racing led nowhere. The heart-pounding to exhaustive effects and physical discomforts associated with high-sugar based beverages, such as teas, sodas, sport drinks and energy drinks, were unhealthy and unacceptable. As a result, Million Beverage, LLC was determined to develop and produce a healthy beverage for optimal physical performance and mental well-being, allowing only the highest quality ingredients to be used in their products.

MILLION® Premium Green Tea is now available for its nation-wide debut and ready to make its mark in this \$1 Billion beverage category.
